

UBCF's mission is to make a positive difference in the lives of those affected by breast cancer. We aid in providing screening, treatment, after-care, educational material, patient and family assistance and information. UBCF provides grants to hospitals and community health centers to benefit patients and families coping with breast cancer. We strive to alleviate the stress and strain that cancer can cause to patients and families and to foster health and well-being through both traditional and holistic treatments by never denying anyone service regardless of age, race, gender or income.

FORWARD PROGRESS

Here at UBCF, we take your gift seriously and with deep reverence. We are continuously striving to put your dollars to work in the most effective manner possible.

In 2019, UBCF assisted nearly 9,000 women, men and children through our 7 programs.
